IMAGES DON'T LIE: EXPOSE EXAGGERATED INJURIES

4D Video Report: \$1,500 per claimant MRI or CT scan used (\$1,300 for each additional claimant scan)

- Medical expert review and verbal opinion within 48 hours
- Full motion 2D & 3D movie (on average 2 minutes in length) within 72 hours
- Medical expert written opinion with reference & integrated with 4D video within 72 hours
- Annotation within the movie of key anatomy and alleged injuries
- High resolution still images of key frames within the movie
- American Board Certified Radiologist written one page affidavit
- 100% money back guarantee on admissibility as demonstrable evidence
- Template cover letter that most client's use to accompany the movie
- Delivered via email and physical copy via FedEx to adjuster and the opposing side (at client discretion)
- No charge for use of anonymized 3rd party MRIs of healthy and injured anatomy (usually similar age and gender) for visual comparison purposes
- No charge for scans that are uploaded, but NOT used in the 3D movie
- No charge for any changes to the 3D movie
- Each additional claimant MRI used in video is \$800, additional written opinion is \$500
- Voiceover available for \$300 per video

Medical Expert Review: Flat \$200 per claimant (regardless of how many MRIs)

- Includes medical expert review and verbal opinion within 48 hours
- \$200 charge only applies in the event claimant's alleged injuries turn out to be legitimate; otherwise fee is embedded within the \$1,500 for the 4D Video Report

A la carte pricing: Medical Expert Written Opinion, \$650 per MRI or CT scan

- Includes a full neuro radiologist (spine, neck, or head) or general radiologist (all other anatomy) written opinion, inclusive of a comparison of the treating physician findings compared to expert findings
- All radiologists are highly credentialed, practicing medical diagnostic radiologists with a small percentage of their overall reads derived from the medical-legal field
- 72 hour turnaround
- Key findings from the written opinion are integrated into the 3D movie
- All radiologists are available to testify or for depositions

A la carte pricing: 4D Video, \$1,000 per claimant MRI or CT scan

- Full motion 2D & 3D movie (on average 2 minutes in length) within 72 hours
- Annotation, still images, affidavit, admissibility guarantee and delivery included

Independent Medical Expert Testimony (see attached Expert Fee Schedule)

Rates vary by radiologist and region of the country. Rates will not exceed fees provided below.
